I want 1,000 FREE NEW Temple Style Tai Chi students World Wide this year. Here's all you need to get started! [FREE Tai Chi GOLD Video on YouTube](#)

Chi Circulations should be the most important concept in the practice of Chi Kung. So why do I appear to be the only teacher in America that focuses the majority of all my instruction on this important aspect.

Others teach relaxation, stress reduction, and other "sleepy" concepts. I don't! I teach how to ENERGIZE, CONCENTRATE, CIRCULATE, FOCUS, AND HOW TO PROJECT your WILL.

If you don't like your world the way it is, CHANGE it! The primary reason you don't have what you want is because you don't want it enough. My Chi Kung practice will raise your "DESERVINGNESS" levels immediately!

You can never practice "enough," let alone "too much." With the right technique, presented in an organized fashion, prioritized so YOU get the most out of all your practice time, you can EXCEL QUICKLY.

All my DVDs are in "real" time. That means, that if I want you to do something for 15 minutes, I am doing it with you for 15 minutes.

If you are dissatisfied with what you've already spent and not learned, unhappy with your current circumstances, desire to change what seems impossible to change, want to have more "daily juice," sparkle in your eyes, make more money, stop feeling bad, release your personal tiger, tired, depressed, or stuck, then I am the perfect teacher for you.

Get rid of that kitty cat! Learn to ROAR!

"Internal Circuitry," that means, Chi Circulations, is where it's at. Learn to circulate your Chi at the speed of light and transform your Chi into Jing. This is the "INTERNAL" in "Internal Kung Fu."

This is exactly what I personally taught word-for-word for over 10 years to each and every client. You will NEVER have to buy another Chi Kung DVD again. You can always find "cheaper." You will NEVER find "better." I promise. GJC

If you can follow directions, you can learn from me.

I teach only TWO things, Tidal Wave™ Chi Kung and Mind Light™ Nei Kung. Private Nei Kung students are currently being accepted.

My unique Chi Kung System teaches you how to 1) Create your Internal Suction/ Attract, 2) Cultivate/Store, 3) Move/ Circulate, 4) and Project your internal energy.

The Best "Internal Training" in the World is all on DVD, "Training at the Speed of Light." Create Focus, Intention, and your WILL.

"You can always find cheaper, but you will NEVER find more exciting & dynamic practices." Gary J. Clyman
Learn to circulate your Chi at the "Speed of Light!" Sound exciting? It is!
Begin with my Chi Kung system. All you have to do is just follow directions.

The BIG question... What's the difference between my Chi Kung & my Nei Kung program? Chi Kung is small and easy and easily fits into your day.

The Chi Kung Daily Practice Routine takes only 28 minutes to do and will never change. I created it right in 1983!

My Nei Kung program is much bigger and much harder. It contains 4 different One-Hour Practice Routines and will remain a daily challenge. Both programs are very exciting.

A testimonial by Joe Vitale! "Gary Clyman is a superman teaching people how to have super powers. I've been doing his original Tidal Wave Chi Kung system every morning for six months now. I learned it from his two videos. It takes me only 28 minutes and pumps enough energy into me to light up a small city.

The amazing thing is that his system is so easy that it defies belief. Yet I've seen my income nearly triple and I expect it to keep multiplying. I've also seen my health and happiness improve and my energy level get so strong that I've had to nearly cut out all stimulants like coffee, else I'll go crazy with all the excess energy surging through me.

Gary's video training program is so powerful and remarkable that I can't find words strong enough to describe it. Since it takes only 28 minutes to do, is basically effortless, and yet can dramatically alter a person's life, I'm surprised he's charging so little for it. I intend to keep using Gary's system, and I fully expect to see even bigger and better results.

Anyone who is tired of what they are getting in life---or what they are NOT getting---needs to get Gary Clyman's video training system and prepare themselves for a radical shift in income, health, relationships, and personal power.

My approach is different from ALL other Tai Chi teachers. Yeah, I teach Tai Chi, but I start where the others in theory, end up, with Chi Kung. Most students never make it to the "internal" part. I've believed for 30 years that this is the place to start, not end.

Create your INTERNAL VACUUM immediately!!! This is the biggest secret and most important lesson in ALL of the internal martial arts. Without your INTERNAL VACUUM, everything else you learn and practice is a waste of time. Others talk about it, I teach it!

It does not matter whether you want to use your Jing for healing yourself and others, maintaining your own mental and spiritual stability, improving your business life, fixing your troubled marriage, or for fighting MMA. Your INTERNAL VACUUM should be your first step, PERIOD.

You do NOT need any Tai Chi experience to cultivate your Jing. Start with Tidal Wave™ Chi Kung.

I opened my Tai Chi school in 1979 and quickly realized that the old way was "dead." Nobody would do it. It was too hard and too slow.

The BEST way to learn is Tidal Wave™ Chi Kung first, Mind Light™ Nei Kung second, and Temple Style Tai Chi last - if you still want Tai Chi. I have been teaching this way since 1983 and this "reverse method" is responsible for changing the lives of literally thousands.

Don't waste your time doing it any other way. Everything is waiting for you and it's all on DVD. Start today! Call me to talk.

This is true, INTERNAL KUNG FU! That means CHI CIRCULATIONS and PROJECTIONS are at the heart of all the Chi Kung and Nei Kung practices. This is the BEST SOURCE for all your internal training, Guaranteed!

I am the only teacher in America that is this organized and inspired to teach this way. I practice exactly what I preach and am exactly as I seem. You can be great and have it all. My practices will raise your DESERVINGNESS. Start now!

Start with Tidal Wave™ Chi Kung or Mind Light™ Nei Kung FIRST. Without your INTERNAL VACUUM, the rest is worthless.

Everything in my system starts at the same place, with Tidal Wave Chi Kung. Regardless of whether you want to be a healer, a fighter, or a serious Tai Chi practitioner, you start with my Chi Kung program.

Even if you are already a Tai Chi Master, you still begin at the same place if you want to have what I have. The "old way" is just not practical anymore. It requires too much time and life is just too busy and too fast.

I have organized everything you will ever need to learn to succeed in your INTERNAL WORK. Your ability will be based on your ability to follow my directions, that's all.

Call me to discuss your particular goals and which skill sets are best for your personal progress. Everything is teachable!

The martial art applications come from my Chi Kung and Nei Kung. I am considering making some new "fighting training" videos.

My system is called CLOSE ENCOUNTERS TRAINING. Bouncing off punches is unique to my system. That means, GOLD BELL TRAINING.

I am the Life Coach of Life Coaches and have been way before it became fashionable.

It is all on DVD/Video except for the Treat With Jing Training which I teach every summer in Chicago. I look forward to having you as a student.

I am sorry for all the time you have already wasted with boring, disorganized, and scatter brained Chi Kung lectures, books, and classes. It won't happen here. GJC

I promise I will do WHATEVER it takes to help you. Many patients fly in from all over the world to get treated with my Jing. Just look at these patient testimonials.

Now for my own testimonial: I saw the article on Gary and planned on contacting Gary for treatment. I had no idea he was at the expo until Friday late afternoon when I saw a gathering around his booth. I observed the procedure for quite a while before I took a ticket. I have to admit the pain factor made me re-think my decision.

I took a ticket for Saturday first thing. I guess you could say I have chronic lower back pain and TMJ, not serious but something was there. Once I was on the table Gary discovered I had abandonment and rage with a second location of rage. I must have had a lot because it seemed like I was on the table for a long time and it was painful. Right before Gary was done I had a sharp pain in my lower back and in my jaw. I thought for sure that my back was thrown out. When I got off the table I felt a lightness, calmer and no back pain. It was gone.

It is now 7 days since the treatment and still no back pain but the best of all is that I have not had any road rage. That was a big thing for me and now I am actually singing with the radio while driving. At first it felt like I was going through the motions but was not emotionally involved. I just don't get worked up anymore even in Cubs traffic. It's great. I hope it lasts forever but if it doesn't I will definitely be paying Gary another visit. You know if everyone went through this procedure the world would be a better place. Thanks Gary. I am passing along my experience to people I know and spreading the word. THE END.

Creating Internal Suction and Energy Pathways are the most important practices in Tidal Wave™ Chi Kung & Mind Light™ Nei Kung.

The Big Question: Who can benefit the most from these valuable practices?

The Answer: People with energy imbalances, lifestyle confusion, health issues, depression, eating disorders, PTSD, self-esteem and DESERVINGNESS issues, and relationship difficulties. The mix can be complicated and usually is. I will use my skill to figure it out.

If these issues are important for you to resolve, then I am the person for you. Call me to discuss how I can address your specific needs.

I have had clients request a "Combination Training Package" that has worked out very well for them. It consists of ONE-Day of Personal Power Training™ and THREE-Days of Mind Light™ Nei Kung Training. I am also willing to break it up into TWO-Weekends, so you can do your homework between sessions.

For those of you that are struggling with strange, chronic or acute unusual health conditions, old patterns, negative underlying belief systems, I treat all the hopeless & strange things that doctors can't seem to figure out or help.

Personal Power Training can also be adjusted and combined with treatment intensives. Chi Kung can be personalized for your specific problem.

THE PRIMARY PURPOSE to learn my system is to cultivate your JING. It is as simple as that. The process for doing that however, is not so simple. I have made learning a workable project. As I have said elsewhere on my web site, "It does not have to take 20 years. Sometimes short cuts are the best cuts."

Cultivating your JING looks like having the health, aliveness, vitality, internal strength, physical endurance, and virtual resilience to make your body, life and world the way you want it. Traits show up as unstoppable WILL, incredible self-confidence, and a deep sense of DESERVINGNESS that can never be satisfied or fulfilled.

Results that seem impossible will come with minimal effort. Success cannot evade you anymore. Your personal practice will dictate what happens in your personal world! It's all organized and waiting for you from the start.

JING equals Internal Power! Nobody has it and everyone wants it. It's not just a theory or philosophy. It is a real, tangible, noticeable, alive vibration that will run in you like hot lava or a bolt of lightening. I have it and can walk you through the process of you getting it. My healing skill is a direct reflection of my JING.

When I say my system, I have re-organized Temple Style Tai Chi into a variety of workable formats. It begins with Tidal Wave™ Chi Kung. Tidal Wave™ Chi Kung which is a collection of the most important pieces of Temple Style Tai Chi and is what makes it an "Internal System." It can take only 3 hours or 5 weeks complete the training.

The next piece is Mind Light™ Nei Kung. When I created my Nei Kung program, it was after teaching my Chi Kung program for over 15 years. Many, many requests came in requesting MORE. After saying "no" for all those years, I suddenly got struck the bolt of inspirational lightening and created my Nei Kung program.

My Nei Kung program's popularity exploded overnight and I had students flying in from all over the country to learn what they had been searching for, for many years.

My Nei Kung program is a success for a few reasons. The first reason is, I am the only teacher actually teaching this material. Another reason is, I am a product of my own practices. That proves that this high level of skill can be obtained by anyone who wants it bad enough. I am not special. I just worked hard and never let life interfere with my progress.

Mind Light™ Nei Kung takes 3 months to complete. Tidal Wave™ Chi Kung is included and is actually the precursor for your Nei Kung instruction. This system was designed to save you time. I did all the work so you don't have

to. All you have to do is follow my directions perfectly. I saved you work that you most likely would never have ever done in the first place.

Please read my materials carefully. Notice how organized and concise my presentation style is. You can have the JING. All you have to do is follow directions. I have confidence in you. Tai Chi should be learned after Chi Kung and Nei Kung have been completed. Learning Temple Style is a huge project that seems to never end. Learning Tidal Wave™ Chi Kung and Mind Light™ Nei Kung fit into today's fast paced, intense life style.

I am the perfect teacher for anyone that is clear about what they want and when they want it. Don't be shy. Call me to talk about this right now.

Treat With JING Training! July 2009 in Chicago. If you are interested in this New Certification Program, e-mail me with your input and ideas and to get on the list.

This is the perfect training for licensed practitioners who want to be more effective on their patients.

My energy practices are exciting. My enthusiasm is contagious. My students love what they learn and are never confused about what to practice. I understand my position and joyfully accept the responsibility of being a Master and a Healer. I love talking about my work and welcome your calls. I would rather talk than type. This is exactly the way I would have wanted to be taught.

Get ready to get inspired and excited! You have come to the right place to learn to become internal, quickly! "It does not have to take 20 years. Sometimes short cuts are the best cuts."

A common question that many of my Chi Kung students ask is, "Why does their life change so rapidly, after they begin practicing Tidal Wave™ Chi Kung?"

The answer is always the same. When a new student begins learning Tidal Wave™ Chi Kung, an alignment process begins to take place. In that I mean, because of the clean technique in the system, you begin to remove the blocks in your energy field and your physical & emotional bodies that have been interfering with your progress and your results in your life. The name of the Tidal Wave™ Chi Kung DVD Program is "Flexing The Muscle Of Your WILL."

In my internal system, one of the first changes that takes place in each new student is an increase in the size of your WILL or the size of your balls in the world.

Years of procrastination, hesitation, ineffective communication, un-focused actions, and other old insecurities are quickly replaced with confidence, clear thinking, linear steps, improved communication skills, total focus, and hunger for more of the good things in life (i.e. better jobs, relationships, money, sex, treatment by others, etc).

This is serious training for serious students. The same vibration and sound wave that I personally produce is taught to each of my students. This vibration circulates through each practitioners system with serious practice. One of the ultimate goals through learning my internal system is to live in a true state of health. Wellness is NOT going to the doctor on a regular basis, any doctor.

Wellness IS becoming self-sufficient. A few of my treatments will help you create the personal momentum to carry you through a healthy life.

Vibration is where it's at. Don't be fooled into doing forms, standing postures, and other boring, going nowhere practices.

Being pain and disease free is not enough. Learning my system will give you the ability to circulate your Chi (energy) & Jing (power), giving you the sensation of a hot wind or current flowing inside of you. Disease, stiffness, weak immunity, inflammation, and depression CANNOT EXIST in the presence of this current.

You will learn how to focus through learning these internal practices. Don't worry if you can't focus. Focus is a skill that can be learned. I teach what everyone talks about, True Internal Training. All you have to is follow directions.

My treatments are personalized because you are special. Each patient is evaluated and treated as an individual because you deserve the best, which I am. There is no close second. I treat the original cause which is causing your symptoms. That does not mean I ignore your symptoms, it means I get ALL of it done so it won't come back.

My treatments are sometimes as simple as me laying my hand on you and sometimes require me to use every trick in the book to make you better. I

will use every skill I have and sometimes my sessions go as long as it takes to fix you. Making you better is what matters to me and my 28 years of healing experience usually proves miraculous.

I know what it's like out there trying to find a care giver you can trust, who is technically capable, personally caring, experienced enough to listen, and with an approach that's got your best interest in mind. I am who I would want to go to. I treat everybody I know.

Some of my treatment relationships span over 20 years. They see me when they need me and stop when they are doing well. I believe you will appreciate all my focus, experience, intensity, creativity, and determination to help you.

I promise, "I will care about your progress as much as you will." If serious health, wellness, and Personal Energy Medicine are what you want, I will be your guide, partner, and/or mentor. You CAN feel better, healthier, more vital, happier, and more excited for the rest of your life. Give yourself a try!
Master Gary J. Clyman L.Ac.

"You can change your life through changing your vibration."

"If you want to learn to circulate your Chi faster than the speed of light, you have come to the right place."

"This is where your vibration really matters and learning is fun, easy, effective, simple, organized & step-by-step."

"You will cultivate your vibration and I treat you with mine."

"Cultivating your Jing is the most important goal in this entire system."

"Condensing Breathing and the Chi circulations are where it all begins!"

I believe that the only reason that people don't have what they want is because they don't know how to focus hard enough and long enough to achieve their goals. My Chi Kung practice will help you strengthen your will.

Practicing Tidal Wave™ Chi Kung will give you what you need to obtain what you want, the way you want it. It only takes 5 weeks to complete my Chi Kung program. You can begin enjoying the fruits of your Chi Kung practice after only a few short practices.

My Chi Kung system will give you focus, focus and more focus... focus like you have never imagined you could have.

Tidal Wave™ Chi Kung will make you hungry and keep you hungry. Hungry for more... Consistent practice brings consistent results. The days you practice will be better than the days that you don't. 4-5 practices per week is all it will take to create major changes in your life. Your Chi Kung practice will enable you to perform at your best, long enough to achieve your goals.

I am very happy you are here. I hope I will help you to cultivate your personal vibration! I am confident, precise, and direct in my approach. Most people will take that over wandering, non-specific, and confused, nearly every time. I believe you will appreciate my clear, concise and to the point style of teaching.

Learn from me and you won't run out hope before you get you want. I give you my personal guarantee. Call me right now with your questions. Gary J. Clyman

What makes an art internal? The answer to this question seems to elude most other teachers. Is it being one with the Tao? No. Is it being soft and circular? No. Is it being emotionally connected with your forms? No. Is it being "mindless" as you practice? No. Is it having a good lineage? So what is internal mean? That is the \$64,000 question. If you don't know what internal is, how can you become internal?

Internal is, having the energy built up, inside your body, before there is any physical motion visible. Internal is, developing the ability to create and project very specific vibrations that can be transmitted and recognized by another without giving any hints. Internal is, having a specific list of practices that allow you to develop your ability to exercise your mind, NOT your imagination, that eventually lead you to having a level of internal techniques that build upon each other that are NOT related to forms.

Internal is, developing the ability to move energy freely throughout your body, having control over it and how it recharge your body with vital energy, enthusiasm, inspiration and excitement.

If you are not being taught how to be internal, you will not end up internal. It does not happen by accident. It begins with Condensing Breathing. Without Condensing Breathing, there will be nothing to circulate or move around. Condensing Breathing is part of Lesson One.

I have 3 programs to choose from. The first is my Tidal Wave™ Chi Kung Video Instruction Program.

The second is my Personal Power Training™ which includes my Chi Kung Program.

The third is my Mind Light™ Nei Kung Program. Look over my web site, read my magazine articles, read my testimonials, and feel free to call me RIGHT NOW to discuss which format best suits your personal needs. I have created all these programs because they are exactly what people are looking for.

I practiced Tai Chi when it was considered strange. I taught Chi Kung before it became fashionable. I am inspired and am teaching Nei Kung, 10 years before the rest. Learn cutting edge practices, the internal heavy stuff, before it becomes popular. I am the only one teaching this material in America.

Don't get stuck learning forms that lead nowhere. Don't waste time, money or enthusiasm. Learn a real "internal" system, directly without wasting time. Call me right now! Gary J. Clyman

What is Chi Kung? When I created my Chi Kung system, I decided to give you the most for the least. That means, it was designed so everyone could reap the benefits with the least amount of work.

What is Personal Power Training™? Personal Power Training™ is a 2-Day Private Training which concentrates on your issues and personal needs. The topics we generally work with are multiplying your income, starting a new business, repairing relationships, and/or increasing your DESERVINGNESS levels. The results are immediate, obvious, and long term.

PPT contains my entire Tidal Wave™ Chi Kung System. Call me to discuss how it can help you personally. Chi Kung does NOT contain PPT.

What is Nei Kung? When I created my Mind Light™ Nei Kung system, it was after many, many requests for a second, more difficult practice. I pulled all the heavy, "internal" practices out of Temple Style Tai Chi and organized it so you can reap the benefits of 20 years of practice without having to actually practice for 20 years.

What is the difference between Chi Kung and Nei Kung? My Chi Kung system was designed to give you the most benefits with the least amount of work. My Nei Kung System was created to give you the right amount of work and is much larger, with entire sub-sets included.

My Chi Kung System is included in my Nei Kung System, in fact, you will complete the Tidal Wave™ Chi Kung System in the first 3 hours of your Nei Kung training.

One of the first questions asked is always, "Where should I start?" The answer is simple:

- 1) Start with the Mind Light™ Nei Kung Program if you can afford it. The Nei Kung Program is available via private instruction or via video instruction.
- 2) Tidal Wave™ Chi Kung is included in the Nei Kung Program and you will complete Tidal Wave Chi Kung System in the first 3 hours.
- 3) The next choice is Personal Power Training™. If you are interested in creating major life changes QUICKLY, then the place to start is with Personal Power Training™.

The major changes I'm referring to are usually but not restricted to 1) starting a new business, 2) changing the way you are treated at work or at home, 3) repairing a troubled marriage, 4) removing an old pattern that does not work for you, 5) removing phobias, long term patterns or negative underlying belief systems, or 6) fighting chronic diseases.

Personal Power Training™ can be arranged to take place privately over any two day period that works best for you or if you live in the Chicago area, Personal Power Training™ takes place over 8 sessions, usually once a week.

The results of Personal Power Training™ are all over my web site and I accept traveling clients frequently. You can stay at a local hotel near my Chicago office. You can complete the entire program in just 2 days. This includes telephone follow-up if needed.

The next available format is to learn Chi Kung via my Chi Kung Video Instruction Program. This usually takes 5 weeks unless you are a professional martial artist, then it can take up to 3 months to complete. Call me to discuss which of these formats best suits your personal needs. Professional martial artists are required to spend more time on each lesson.

Temple Style Tai Chi should be the last step in your internal training. In most cases, it is NOT necessary to achieve your internal aliveness. I look forward to your call! 24/7.

I also do in-depth consultations to help sick people harness their Chi Kung to fight disease.

Sincerely, Master Gary J. Clyman
